

Yaseen Osama Alsisi

FULL STACK JAVA DEVELOPER

[Email](#) · [Phone](#) · [GitHub](#) · [Portfolio](#)

ABOUT

Computer Science student passionate about software development, problem-solving, and building meaningful real-world solutions using technology. Currently expanding knowledge in Java, data structures, and algorithms, with practical experience in backend development and teamwork-based projects. Interested in modern technologies, competitive programming, and gaining hands-on experience through internships and personal projects. Dedicated to continuous learning, strong leadership, and writing clean, optimized, and maintainable code.

EDUCATION

Bachelor's Degree in Computer Science and Information Technology *Helwan* 2024 – 2028
National University | CGPA: 2.7

PROJECTS

Web & System Development – Leadership Institute (LDI) – Ministry of Higher Education *Finished*

- Built using HTML, CSS, JavaScript.
- Contributing to UI structure, page layout, and frontend planning.
- Developing a web-based website for institutional presence and information delivery.
- Preparing the database design and system requirements for future system implementation.
- Applying best practices in clean code, usability, and responsive design.

Hypermarket Management System | Java *Finished*

- Developed a console-based Hypermarket Management System using Java and OOP.
- Implemented product, customer, and sales management features using file handling for data storage.
- Applied core programming concepts including classes, inheritance, encapsulation, and data structures.
- Designed a structured system workflow to simulate real-world retail operations.
- Utilized Java Collections Framework for efficient data management and processing.

TRAINING & INTERNSHIPS

Backend Member in Tech Team – FCSIT Scientific Committee – HNU *Apr 2026 – Present*

- Developing and maintaining backend systems while collaborating on real-world team projects.

Tech Team Member – Leadership Development Institute – Ministry of Higher Education *Jan 2026 – Present*

- Collaborated within the technical team to contribute to real-world software and backend development projects in a professional working environment.

ECPC Community – Helwan National University *Jan 2025 – Aug 2025*

- Received training in algorithms, problem-solving, and data structures. Practiced problem-solving using competitive programming platforms.

Meta Code – Helwan National University

- Participated in Meta Code at Helwan National University, sharpening coding skills and collaborative problem-solving.

EXPERIENCE

Volunteer – Leadership Development Institute (LDI) – Ministry of Higher Education

- Volunteered at major events organized by the Leadership Development Institute under the Ministry of Higher Education.
- Developed a wide range of soft skills including communication, teamwork, time management, and event coordination.
- Demonstrated ability to lead and manage teams effectively in high-pressure, fast-paced environments

TECHNICAL SKILLS

Programming Languages: Java • C • C++ • Python • JavaScript • SQL

Frontend: HTML • CSS

Backend: Java Backend Development • Spring Boot

Tools & Software: • IntelliJ IDEA • VS Code • Antigravity PyCharm • CodeBlocks

Version Control: Git & GitHub

Languages: English (B2)

VOLUNTARY WORK

Meta Coder Volunteer

2025 – 2026 Present

- Engaged as a volunteer coder, contributing to coding initiatives and community-driven tech activities.

Leadership Support Member – Leadership Development Institute (LDI)

2025 – Present

- Supported event planning and execution, collaborated with team members, and helped ensure efficient coordination and workflow.
